JULY CLEARANCE SALE

Men's Fancy Suits, Young Men's Suits, Fancy Medium Weight Overcoats, and Boys' Norfolk Suits

This is an event of particular interest and significance at this time—for mark well these facts:—Market prices have advanced 25 to 40 per cent. since these great stocks of fine merchandise were bought:—in view of present conditions, you will rightly consider yourself very fortunate to get these goods at our low regular prices, if they weren't reduced a penny.

And on our side we'd be fully justified in carrying over and selling at advanced prices later on, merchandise as thoroughly fine and good as you know it to be here.

But as we've said before, we're merchants, not speculators—we'll stick to our long-established policy that goods must be sold in season for which they're bought—we'll sell them NOW—and we'll take for our profit the good will and good word of thousands who will share the more-than-ever unusual advantages this event provides you.

One more word:—We consider it unpatriotic to buy clothes unless you need them:—but if you do need them—then by all means take full advantage of this opportunity.

Better to Save Money Than to Inherit It.

Inherited money teaches no lesson of thrift. Indeed, it often leads to idleness and utter incompetency. But the man or woman who by self denial and steady habits have acquired the habit of saving has acquired the knack of making money and taking care of what he makes.

A growing savings account in a savings bank is the only foundation on which to build a fortune or a competency.

Obeys that impulse and open a savings account in this bank. One dollar will do it.

JAPS POSTPONE MOVE FOR WAR; CLAN OBJECTS

Satsuma Body Thinks Action at Present Time Would Be Perilous.

London, July 18.—A meeting of the Japanese advisory council called for Monday to approve decisions taken by the government was postponed owing to the opposition of Messrs. Takino and Hara, says a dispatch to the Times from Tokyo, dated Mon-

day. It was reported that Mr. Takino represents the views of the Satsuma clan, who hold the situation is not yet critical enough to necessitate Japanese action and that it would be perilous to stake Japan's fortunes before a German invasion actually endangered Japan.

The council, it is added, then was ordered to meet on Tuesday.

An Associated Press dispatch from Tokyo dated July 13 and received Tuesday reported that a special meeting of the Japanese cabinet was held Saturday. It was added that the meeting was attended by army officers and that it was believed that some communication concerning Russia had been received from the American government.

The Satsuma is one of the most powerful clans in Japan and supports the present imperial government. The exact nature of the Japanese advisory

council is not clear, but the privy council list does not contain the names Takino and Hara.

LENINE ORDERS MARX MONUMENT

London, July 18.—Nikolai Lenin, the Russian Premier, has issued a decree directing M. Litvinoff, the Bolshevik envoy in London, to give 1,000,000 roubles to the family of Karl Marx, the German Socialist, for the erection of a monument on Marx's grave in London.

Marx is buried, with his wife and child, in Highgate Cemetery, in suburban London. All three bodies are in a single grave, which is marked with a plain flat stone.

M. Litvinoff is at present without funds, but has made various demands on London banks for deposits lying there to the credit of the old Russian

TURKS REPORT JORDAN VICTORY

London July 18.—An official statement has been issued in Constantinople relative to the fighting in Palestine on July 13 and 14, saying that east of the Jordan a Turkish assault provoked a British counter action, supported by a cavalry division and armored cars. The Turkish war of-

fare claims this division was nearly annihilated only stragglers escaping.

Reuter's correspondent in Palestine says the Turkish attack early Sunday proved costly and failed to gain ground. The enemy lost 600 prisoners, it is said, of whom more than half were Germans.
